

# Pump House Drive

## DRAINAGE IMPROVEMENT PROJECT

### Project Introduction

This proposed drainage improvement project involves the neighborhood that generally includes Wilbon Street from Sunset Avenue to Pump House Drive, Bute Lane from Sunset Avenue to Pump House Drive, Rugby Road from Wilbon Street to Pump House Drive and approximately 2,800 linear feet of Pump House Drive itself.

This project was initiated as a result of increased reports of issues with the existing drainage system, including flooding. The proposed improvements for the study area will be bounded as shown in the highlighted area on the figure to the right.

Within the project area, the majority of drainage infrastructure consists of catch basins and sheet flow along the roadway/curb and gutter. The existing infrastructure may require improvements to restore hydraulic connectivity and improve public health and safety.

### Project Schedule

**Project Assignment:** July 2019 (Hazen and Sawyer, Inc.)

**Survey & Preliminary Design:** August–October 2019 (H&B Survey and Accumark)

**Engineering Design:** October 2019–April 2020 (Hazen and Sawyer, Inc.)

**Construction Assignment:** TBD

# WHAT HAPPENS NEXT:

## Field Investigation & Survey Work

Survey work will be performed by H&B Survey and Accumark to collect existing data for proposed design improvements. Residents may notice vehicles in the neighborhood and survey crews collecting data and performing field investigations. At times, the teams may need to access portions of private properties within the project area to collect information and to determine right of way boundaries.

## Public Meeting

Public meetings will be held to present proposed improvements and receive feedback. Times and locations of these meetings will be announced as the project progresses.

## Project Duration

Overall, the design and survey is planned to be completed by April 2020. The project will be advertised for construction in May 2020. Prior to the commencement of construction, a letter will be sent to adjacent property owners to notify the neighborhood of the construction start date.
