

Richmond DPU: City Improvement Projects

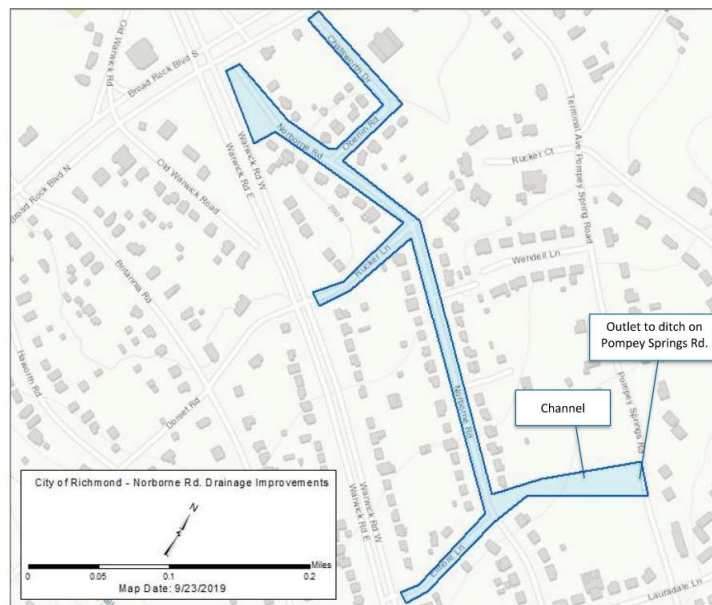

Job: Norborne Road Drainage Improvement Project

Location: Norborne Road, north of Elmore Lane

Project Introduction

This project will reduce the frequency and severity of roadway flooding and maintenance costs incurred by the City when cleaning the drainage system. The project will result in improved drainage capacity and fewer clogs in the drainage system.

The project area, highlighted within the figure below, will take place primarily on Norborne Road north of Elmore Lane, including Elmore Lane, Rucker Lane, Oberlin Road, and Chatsworth Drive. It will also include the channel between Norborne Road at Elmore Lane and Pompey Springs Road.

Project Schedule

Project Assignment: August 2019

Survey & Preliminary Design: January 2020

Engineering Design: Fall 2020

Construction Assignment: To Be Determined

WHAT HAPPENS NEXT:

Field Investigations:

Survey work has been performed by Cardinal Survey to collect data for the proposed design improvements. Citizens may still see survey or engineering staff and vehicles in the neighborhood and project corridor collecting additional data and performing field investigations on occasion. The information collected will be used to ensure an accurate design for optimal drainage improvements.

Public Meetings:

Public meetings will be held to present proposed improvements and obtain citizen feedback. The times and locations of the meetings will be announced as the project progresses.

Project Duration:

This project is currently in engineering design. The project will be advertised for construction when the design is finished, subject to funding availability. Before construction begins, a letter will be sent to adjacent property owners to notify the neighborhood of the construction start date.
